SAFETY DATA SHEET

Effective: January 26th 2016

Section I: Identification of Substance / Preparation and of The Company / Undertaking

Identification of Preparation: Pacothane Thermo film -
International Designation: Pacothane Thermo film Release Film
Company Identification: Multilayer Worldwide Enterprises
37 East Street
Winchester, MA 01890
Phone: (781) 729-0927
Fax: (781) 729-9093

Section II: Hazards Identification

Canadian WHIMS: Not a controlled product.
EU Preparation Classification (1999/45/EC): Not a Dangerous Product
Emergency Overview: Dust generated during machining, grinding, or cutting of this material may cause mechanical irritation of the skin, eyes, and/or upper respiratory tract.
Human Health Hazards: None known
Routes of Entry: At temperatures exceeding 800°F, strong acids or bases may hydrolyze film

Section III: Composition / information on Ingredients

1 Represents inhalation hazard in powder form. As encapsulated in high melt point plastic, it is not possible to inhale unless film is ground to powder of breathable size.

Section IV: First Aid Measures

Seek immediate medical attention if irritation occurs.
Inhalation: Remove individual to fresh air. Treat respiratory distress as appropriate.
Skin: Remove contaminated clothing and wash skin thoroughly with soap and water.
Eyes: Immediately flush eyes with large amounts of temperate water for a minimum of 15 minutes. Seek medical attention.
Ingestion: Unlikely source of exposure based on expected use. Seek medical attention.

Section V: Fire Fighting Measures

Extinguishing media: Carbon dioxide, foam, dry chemical, water.
Unusual fire and explosion hazards: None.
Special fire fighting procedures: If possible, wear fire resistant clothing and self contained breathing apparatus in any enclosed space.

Section VI: Accidental Release Measures

Sweep or scrape into approved container for proper disposal.

Section VII: Handling and Storage

Handling: Product is a solid at temperatures below 400°C and do not pose a health hazard as shipped.
Storage: Store at room temperature in original containers, if applicable.
SAFETY DATA SHEET

Section VIII: Exposure Controls / Personal Protection

Personal Protective Equipment
Respiratory: Adequate general or local ventilation.
Skin Protection: Wear protective gloved during handling.
Eyes: Always wear safety glasses or face shield when machining, cutting, grinding, or otherwise handling product.

Section IX: Physical and Chemical Properties

Appearance: Matte translucent film
Odor: Not applicable
pH: Not applicable
Boiling Point: Not applicable
Flash Point: Not applicable
Lower Explosive Limit: Not applicable
Upper Explosive Limit: Not applicable
Vapor Pressure: Not applicable
Specific Gravity: Not applicable
Solubility in Water: Not applicable
Partition Coefficient: Not applicable
Viscosity: Not applicable
Total Volatile Organic Compounds: Always wear safety glasses or face shield when machining, cutting, grinding, or otherwise handling product.

Section X: Stability and Reactivity

Stability: Material is stable under expected conditions of use.
Incompatibility: Strong acids.
Hazardous Decomposition Products: None known

Section XI: Toxicological Information

Effects of Overexposure
Inhalation: None known
Skin: None known
Eyes: None known
Ingestion: None known
Chronic Toxicity: None known
Mutagenicity: None known
Reproductive: None known

Section XII: Ecological Information

Ecotoxicity: No specific data available
Mobility: Low in soil and water based on negligible water solubility
Degradability: Not biodegradable or water soluble
Bioaccumulation: Extent unknown, material has long half-life

Section XIII: Toxicological Information

Follow all applicable local, national, territorial, and/or international regulations. Refer to the European Waste Catalog (EWC) for waste code(s).

Section XIV: Transport Information

Not Regulated.
Section XV: Regulatory Information

No specific Regulatory Information available.

Section XVI: Other information

Current MSDS Date: January 26, 2016
Previous MSDS Date(s): New
